Ron Matthew Rivera
Software Developer

Fresh Computer Science Graduate looking for work to use my software development skills learned from university and personal experience.

Professional Experience

Web Developer Intern
HELIX SOFTWARE, AUGUST 2021 - SEPTEMBER 2021
Acted as a tech lead – Handled both backend and frontend of the system – created APIs using REST- Developed and translated business requirements to working software.

Personal Projects

Matrix Path

Link: https://shadedgames.itch.io/mpv11d
A Path Building Puzzle game where you find your path to the exit by rotating different tiles in the board. It is made for our thesis where we solve the difficulty constraints of a procedural path-building puzzle games.

Personal Website

Link: ronmattss.vercel.app | shadedgames.azurewebsites.net

The first link is a website built using React framework and hosted in vercel.
The latter website is built using ASP.net core and hosted in a web app in Azure. This website contains all personal projects I made
